

Over the Shoulder

Full Mouth Rehabilitation Demonstration Program

with John Nosti, DMD, FAGD, FACE

Clinical Mastery

Presented by *Gold Dust*

The Goal: This 2 weekend, 4 day demonstration and lecture program allows attendees to experience side by side learning with Dr. John Nosti, as he diagnoses, treatment plans, prepares, provisionalizes, and cements a Full Mouth Rehabilitation. Participants will have the opportunity to work in a small group atmosphere to absorb the particulars of the thought process, treatment steps and patient management of complex cases. Two full days of lecture, with hands on segments, case treatment planning and clinical observation.

Learning Objectives:

- Learn a predictable system for screening complex cases for joint, tissue, occlusal and aesthetic concerns
- Observe and practice bite records necessary for completing a full mouth rehabilitation
- Understand how to sequence the preparation and temporization phase of a full mouth rehabilitation
- Observe a step-by-step process of predictable cementation
- Learn two different styles of provisionalization that achieve temporaries that will last
- Practice and learn the camera settings and techniques for great intra-oral
- Master a facebow and stick bite record while understanding their value to the result of the restorative case
- Improve lab communication with submitting exactly what's necessary
- Participate in case planning workshops and skills testing
- Develop a patient protocol for rehabilitations from case presentation to post cementation

May 18, 19th and June 8, 9 2012
Chicago, IL

Space is limited to 15 attendees! Don't wait to enroll, this course will sell out fast.
